

Science Laboratory Safety Seminar- Level 1

for School System / School personnel

Presented by Science & Safety Consulting Services

Date & Location	July 18-23, 2010	Raleigh, NC
Who Should Attend	School personnel: Administrators, Safety Officers, School System & School Chemical Hygiene Officers, Science Consultants, Facilities Managers, School Administrators, Lead Chemistry Teacher / Middle School Science Teacher in the LEA.	
Course Curriculum	This information-packed course is designed to equip participants with the knowledge and skills necessary to provide school system and school personnel with the knowledge and skills to develop and sustain an on-going science laboratory safety program in their school system and school.	
	An exemplary array of nationally-recognized experts in the field of school science laboratory safety, will present relevant information regarding Federal and State OSHA regulations; State Departments of Education policy, fire/building codes, and professional standards that govern the unique school science laboratory. Our objective is to have as many LEAs and states represented at the seminar as possible.	
Featured Speakers Include:		
Kelly Ryan, Esq.	Nationally famous attorney and author of "Science Classroom Safety & the Law, Pasadena, CA – <i>Legal Issues of Science Classroom / Laboratory Safety</i>
